St. Lucy was an early 4th Century martyr from Rome. She is remembered for her chastity and charity. She served the Christians in hiding, and was a faithful Christian herself. In Sweden on St. Lucy's day, coffee and sweet rolls are typically served by children to their parents, in honor of the supplies she used to bring to the Christians hiding in the catacombs. It's a day of celebrating the light that pierces the darkness through a day of thoughtfulness and kindness in honor of St. Lucy's kind service to others. Also, the 3rd Sunday of Advent represents the JOY we are so close to Christmas! Thank you for helping the poor served by Pro Labore Dei through your donations and purchases today!
